Knowledge will empower us
because we know that it's the key

we shall not fail to always do our part
as we build upon our past
we will make our future last

As Christ College we shall strive
humbly serve but full of pride
by our deeds we glorify
our God our eternal guide

The Exam Cell serves as the chief administrative framework for the scheduling, execution, and integrity of all internal and external student assessments. It oversees the areas: preparing exam schedules and seating logistics, processing student registration fees, appointing invigilators, managing the secure custody of question papers and answer sheets, and coordinating result compilation alongside revaluations. The cell operates via an Examination Committee directed by the Exam Dean as Chief Superintendent, administered by an Exam Coordinator of Examinations, and supported by administrative staff to deliver transparent and confidential processes.

13. WOMEN CELL

The cell plans to empower girl students and faculties, upgrade their conception of issues associated with women students and to make the college campus a protected place for girls and women and to resolve the functional issues related to the welfare of women students and faculties. So as to take up women issues and problems, the cell targets at creating awareness about their privileges and rights. It also provides a stage for women to share their experiences and difficulties. Added to it, ideas for improvement and empowerment are always accepted. Focusing on social upliftment of the girl students, the cell represents working with girl students

for the women empowerment through guest lectures, seminars, awareness programs and other welfare activities.

14. IQAC

The Internal Quality Assurance Cell (IQAC), mandated by the National Assessment and Accreditation Council (NAAC), serves as the strategic framework for sustaining and enhancing educational and administrative standards in higher education. Rather than focusing on temporary fixes, its primary objective is to embed a continuous "quality culture" across all institutional processes. Operationally, the IQAC drives five core pillars: executing Academic and Administrative Audits (AAA), analysing stakeholder feedback, organizing Faculty Development Programmes (FDPs), establishing rigorous performance benchmarks, and systematically maintaining all documentation while compiling crucial institutional records. To achieve these benchmarks, the cell functions through a collaborative committee led by the Principal as Chairperson and managed by an IQAC Director, supported by a core group of internal professors.

15. IT WING

The IT Wing serves as the technological backbone of the college, managing the digital infrastructure, data security, and e-governance systems essential for daily operations. It oversees maintaining the campus network and Wi-Fi infrastructure, updating the official website and portals, enforcing cybersecurity, and securing data backups. The wing operates via a technical committee led by an IT Wing Coordinator and is supported by system administrators and technicians to deliver seamless digital support for students and staff.

Each department makes elaborate preparations and has healthy competition among each other in conducting this weekly assembly effectively.
